NIH Manuscript Submission System

New manuscript submission

1. Title Information   2. Add Funding   3. Upload Files   4. Check Files   5. Set Reviewer & Embargo

There are three methods you can use to supply the journal and title information for your manuscript.
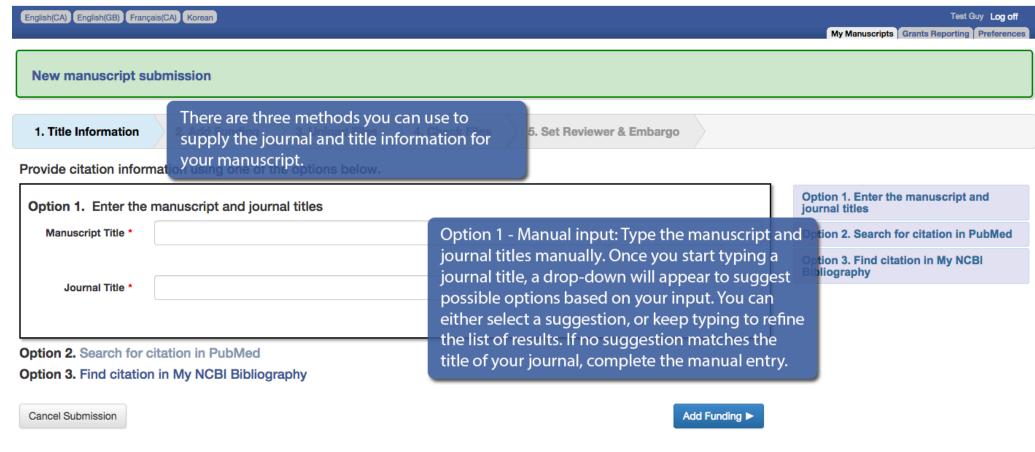

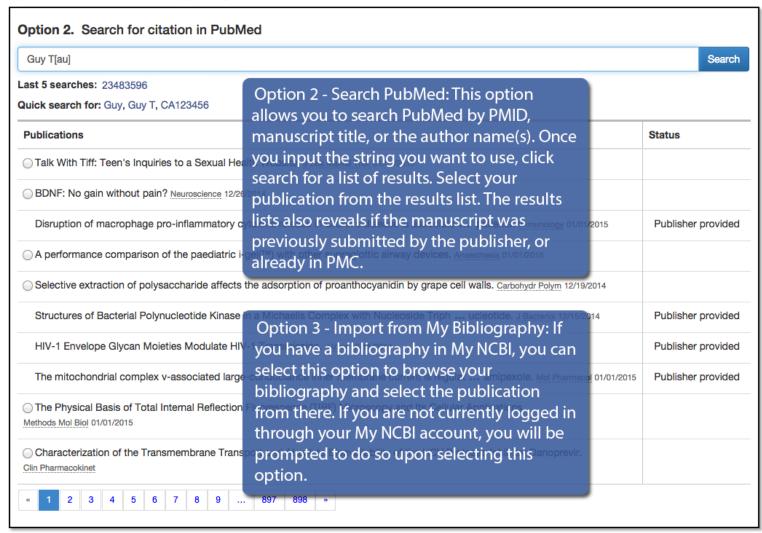

Provide citation information using one of the options below.

Option 1. Enter the manuscript and journal titles

Manuscript Title *

Journal Title *

Option 1 - Manual input: Type the manuscript and journal titles manually. Once you start typing a journal title, a drop-down will appear to suggest possible options based on your input. You can either select a suggestion, or keep typing to refine the list of results. If no suggestion matches the title of your journal, complete the manual entry.

Option 2. Search for citation in PubMed
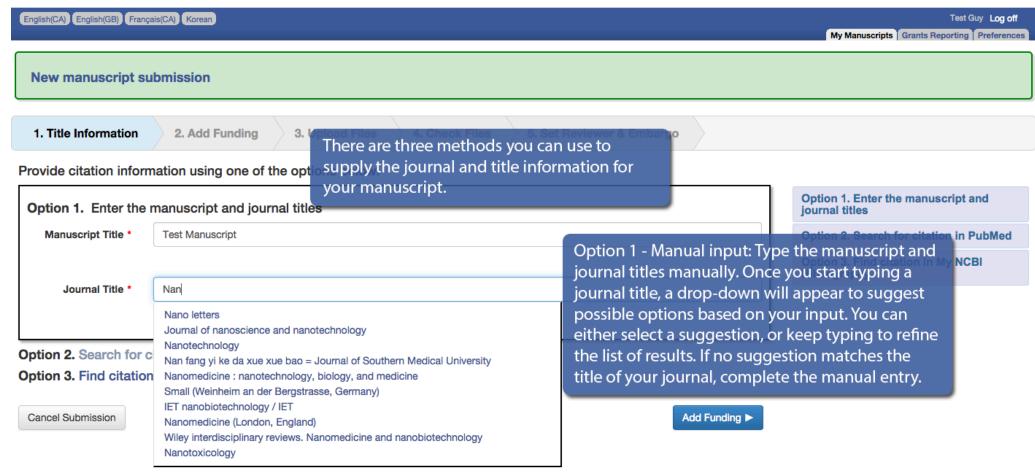

Option 3. Find citation in My NCBI Bibliography

Option 1. Enter the manuscript and journal titles

Option 2. Search for citation in PubMed
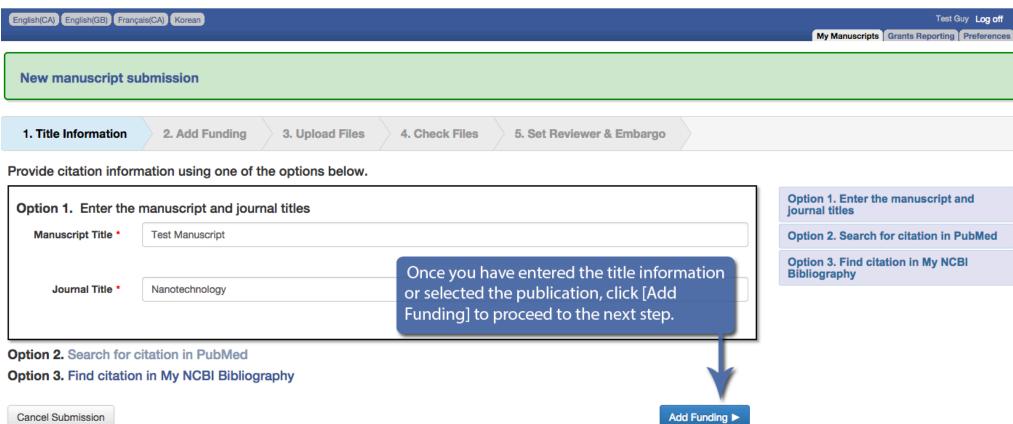

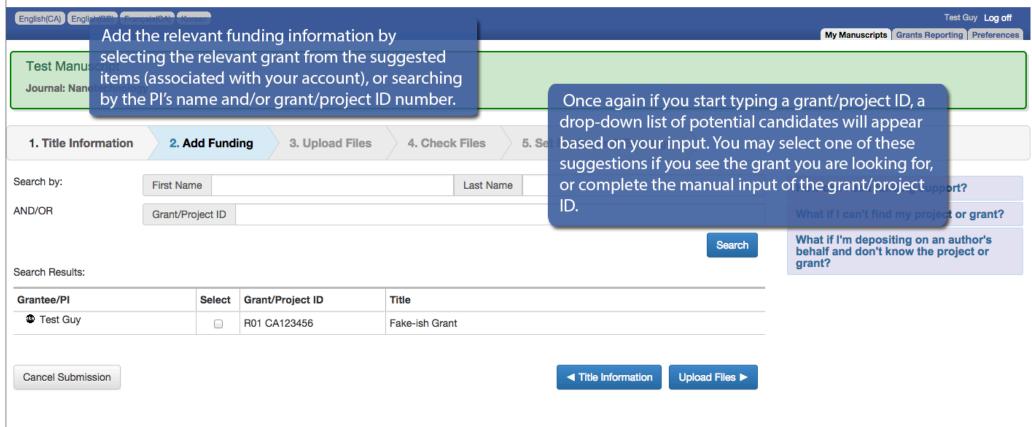

Option 3. Find citation in My NCBI Bibliography

Option 2 - Search PubMed: This option allows you to search PubMed by PMID, manuscript title, or the author name(s). Once you input the string you want to use, click search for a list of results. Select your publication from the results list. The results lists also reveals if the manuscript was previously submitted by the publisher, or already in PMC.

Option 3 - Import from My Bibliography: If you have a bibliography in My NCBI, you can select this option to browse your bibliography and select the publication from there. If you are not currently logged in through your My NCBI account, you will be prompted to do so upon selecting this option.

Option 3. Find citation in My NCBI Bibliography

Upload your manuscript files here. You may submit your manuscript all in one file, or as separate files for each component. If providing separate files, please upload each file under the correct type (i.e. use type Figures for figures, type Table for tables, etc).

| 1. Title Information | 2. Add Funding | 3. Upload Files | 4. Check Files | 5. Set Reviewer & Embargo |

Please upload all files associated with your manuscript, including supplemental files, and move to the next step.

Also please provide unique and descriptive labels for each file. We will use the labels to determine the figure placement in the PMC-ready documents, so correct labeling is important.

Type	Label	File	Size	Date	Remove
Manuscript *		Choose File Submission Script.txt			X
Figure	F1	Choose File NIHMS_Overview.png			X
Table		Choose File No file chosen			X
Supplemental		Choose File No file chosen			X

Review of NIHMS submission statement

Submission Statement

Manuscript Title: Test Manuscript
Accepted for Publication in: Nanotechnology

I am an author of this manuscript, and I am providing it to the National Institutes of Health (NIH) available in PubMed Central **12 months** after its official date of publication in the journal.

I confirm that:

Publication and Copyright Agreements — In any agreements that I have made with the journal, I have retained the right to deposit *this version* of the manuscript with PMC, so that it may be appropriately tagged and made available to the public on the PMC web site; or, I otherwise am legally authorized to deposit this manuscript for the purposes described.

Confidentiality — The manuscript may contain confidential information that must not be publicly disclosed prior to publication of the paper in the named journal.

Peer Review — The version I am depositing has been peer reviewed and accepted for publication and includes all modifications resulting from the peer review process.

Funding — The manuscript in whole or in part, by direct costs funded by NIH.

NIH Manuscript Submission S

Please note the summary information for the submission you just made, and take a moment to review the next steps so you will know what to expect as we process your submission.

Thank you for the submission.

Manuscript Title	**Test Manuscript**
Journal	**Nanotechnology**
NIHMSID	**16059**
Release Delay	**12 months**
Reviewing Author	**Test Guy**

WHAT'S NEXT?

Step 3
NIHMS staff reviews the approved files for completeness, and complete submissions are converted to archival XML. The PMC-ready documents (Web and PDF versions) are checked to ensure they accurately reflect the submitted files. Processing time for this step is usually 2-3 weeks but may vary depending on the volume of submissions at a given time. An e-mail notification is sent to the Reviewer when the record is available for final review.

Step 4
The Reviewer reviews the PMC-ready documents (Web and PDF versions) and either requests corrections or approves them for inclusion in PMC. Final Approval is required to complete manuscript processing in NIHMS.

Step 5
A PMCID is assigned when the manuscript is matched to a PubMed record with complete citation information. For details, see When will a PMCID be assigned to my manuscript?
